

Library Foundation SD Committee Service

Are you passionate about libraries and the endless opportunities they present? Want to get involved in helping to make San Diego's Public Library system the world's best? We've got a spot for you!

The Library Foundation SD is looking for volunteers who love the library and are ready to roll up their sleeves and pitch in to help us in our mission to support excellence in the library system. We are looking for diverse voices that represent the community we serve. We currently have openings on several committees, and see committee participation as a potential step to Board service.

Interested? We'd love to hear from you!
