Bundle HPT Employee + Cybersecurity	\$39.99	\$31.99

Mandatory Harassment Prevention training

California employers with five or more employees are required by law to provide two hours of sexual harassment prevention training to all supervisors and one hour of such training to nonsupervisory employees.

Online harassment prevention training through CalChamber makes it convenient to effectively train employees and fulfill your compliance obligations. Our courses meet California's legal requirements and include best practices that raise awareness about the subtleties of harassment, improve workplace culture and respect, and increase productivity and a sense of well being.

Cybersecurity Training

CalChamber's "The Road to Cybersecurity" training course is an interactive, computer-based training designed to enhance understanding and awareness of cybersecurity practices.

The course has users exploring cybersecurity scenarios in "day-in-the-life" fashion through various interactions. It equips participants with the skills needed to protect themselves and their organization from cyber threats.
